Subject: RE: Contract work for private well sampling

Hi Bob,

Sand Creek Consultants, Inc. – Corporate Office

108 East Davenport Street
Rhineland, WI 54501
Tel 715.365.1818

Brenda did work for us a few years back. She is no longer with Sand Creek, but the company is local and good.

Weston Solutions of Michigan Inc.

2501 Jolly Road, Suite 100
Okemos, MI 48864
office: 517-381-5934 cel: 517-256-7662

Katie Mooney has coordinated work for us. Weston completed EPA TBA work and work for the Tribe on reservation. Katie Mooney coordinated the work but the field people came from a local office.

REI- these guys are local and were the contractor from the Tower Creek LUST site. There supposedly was a problem with the reimbursement claim resulting in unreimbursed work. The

RP blames the state.

Kristen

Subject: Contract work for private well sampling

Hi Kristen,

I hope the end of your summer is going well. I have a call with our contractor set for this afternoon to discuss the sampling work.

I know that they will ask if we know of any qualified firms that they can hire as subcontractors to do the sampling. We can't recommend anyone, but we can suggest firms for them to contact to get bids. I know that REI does a lot of work from their Wausau office. Do you have any local firms that you have used in the past to collect samples for you?

Thanks. I hope to have the task order complete and funded soon.

Regards,

Bob
